

## Hankook tyre service

- Attractive Hankook tyre prices, as listed on our website:  
<https://www.24hseries.com/series/budget-info>
- Hankook will support teams individually to make the best choice of the tyre size and compound to be used during 24H SERIES races.
- Previously purchased rain and slick tyres at 24H SERIES races with a special Hankook decal can be used in all other 24H SERIES events.
- Because all Hankook tyres will be delivered at the track, teams only have to pay for the tyres they actually used (Please note: Tyres fitted on the rims are not refundable. However, rain and slick tyres with a special Hankook decal can be used in other 24H SERIES events).
- Maximum competition, because all teams will run on the same high quality Hankook tyres.
- Hankook will have rain tyres available for each team (2 sets per team at 12H races, 3 sets per team at 24H races). From experience Hankook can inform you that three sets can run 4-6 hours under full wet conditions

***Please note:***

*Rain tyres are not returnable.*

*We'll not accept any return of any wet tires if mounted or not if team order wet. They have to take it over and pay all of them*

- Hankook will take care of transport of all tyres, therefore teams will save on the transport costs.
- At each of the 24H SERIES powered by Hankook races, Hankook tyre service engineers will be available in the pit lane to support and advise the teams.
- During the entire event, private test, free practice, qualifying and the race itself only tyres with a special Hankook decal are allowed.

### Hankook ordering conditions

- Price list is including discount and excluding German 19% VAT.
- In case a team has a valid VAT-number, for invoices paid in advance by bank, no VAT will be shown on invoice as delivery will be regarded as an intra-community transaction. Reverse charge mechanism applies according to EU-guideline 2006/112/EG.
- The participants must purchase the tyres at the official Hankook distributor (C&R Motorsport)
- For payments on track by credit card, a 3% credit card disagio applies
