TV-signal, live streaming & live timing

With the experiences from last years, we unfortunately can't guarantee a stable tv-network. The tv-system of the Dubai Autodrome can't manage these number of tv's (and connections).

Therefore, we would like to advise you to take the following with you.

Live stream: tv's with DVB-T/DVB-T2 option. Please check of your TV has this option. Otherwise it's possible with a separate DVB-T antenna. We will make sure there is a DVB-T signal in the air.

Live timing: TV's with internet (cable or WIFI) can watch the live timing via

<https://getraceresults.com/>

In this way it should work to receive the streamings.
